One Day Webinar on

How to Create Course and Course Activities in Open Source Online Learning

Date & Time: 14th June 2020 from 11AM to 1PM

OBJECTIVE: To explore digital learning tools that can be used by teachers and students to expand their knowledge and make online learning easy.

INTRODUCTION: Make teaching online easier by exploring and introducing helpful apps in online class. Use technology to make online classroom management and student engagement easier and to gain the best teaching experience.

Commissionerate of Collegiate Education, AP directed Degree Colleges in Andhra Pradesh to implement blended learning system integrating conventional and online mode of teaching-learning process. In this context Principals should introduce evaluation system using online & offline methods (both Synchronous & Asynchronous). The new challenges due to the prevailing Covid-19 pandemic can be better faced through global learning systems. Therefore, the colleges are expected to develop workable models to continue the academic process without compromising quality and standards. Extra efforts are needed to ensure smooth functioning and to engage students, teachers and other staff to perform their duties and responsibilities effectively.

Hence, Hindu College Management, Guntur came forward to organize webinars to explore online learning management systems through which Technology paves the way for education, thus helping the students and teachers to connect virtually through online classrooms, webinars, digital exams, and so on.

Online learning management systems have many tools for creating dynamic, interactive and engaging online courses. With multiple modules for both synchronous and asynchronous learning activities, learners have a plethora of tools for learning in real-time and on their own time. With online course builder tools, you can create eLearning programs utilizing a number of strategies, including: self-paced, non self - paced and blended learning. With the capability to add video, discussion questions, quizzes and external resources to your online courses, Safety and Hazard Training can be completed at a time and location convenient to the learner.

Learning management systems generate mountains of data but typically have limited reporting and analytics capabilities. Some only enables the ability to generate standards reports for certain subsets of data, but not all of it. Some of the Learning management systems software is free to download and is distributed under the GNU General Public License.

Deep Customization and flexibility let you do exactly what you want. Data-based insights allow you to understand and improve the eLearning process. Some of the open source is user-friendly eLearning platform, serves the learning and training needs.

PROCEDURE: An efficient academician, Prof E. Kesava Reddy, Department of Mathematics, JNTUA College of Engineering, Anantapur acted as Resource Person and enlightened teachers and students through ZOOM platform. He addressed teachers and students of all regions in India and explained How to Create Course and Course Activities in Open Source Online Learning through MOODLE platform. He presented through online demonstration of MOODLE tools.

OUTCOME: Participants have been empowered by providing quality eLearning experiences and to improve the knowledge of open source education technology, MOODLE platform. More than 600 persons attended all over India. Video link of the entire program is shared and E certificates are provided to participants.

Education

- ▶ **Prof. E. Keshava Reddy** is an Enthusiastic Mathematician with idea logistic brain in all the fields of Engineering and Mathematics.
- ▶ M.Sc. MATHEMATICS FROM BANARAS HINDU UNIVERSITY.
- ▶ B.Sc.(Hon's) MATHEMATICS FROM BANARAS HINDU UNIVERSITY.
- ▶ Worked on Functional Analysis
- ▶ Worked on different projects using Functional Analysis

Career

- ▶ Started career as a Lecturer of Mathematics and now working as Professor of Mathematics, JNTUA College of Engineering Anantapur
- ▶ Controller of Examinations for 4 years
- ▶ Prof. E.Keshava Reddy has his own Modular Object-Oriented Dynamic Learning Environment(Moodle) site through which he teaches Mathematics to B.Tech. and M.Tech. students online.
- ▶ He is also guiding research scholars by considering new challenges in Mathematics.
- ▶ He is also a BOS and BOE member of different autonomous Institutions. He is a reviewer for Both National and International Journals to share his broad experience with upcoming Mathematicians.

Research and Consultancy

- ▶ He published more than 90 papers in both reputed National and International Journals
- ▶ **Professor. E Keshava Reddy is doing research on How to Implement Mathematical Methods in Computer Science to Solve Complex IT Problems.**
- ▶ He guided 16 Ph.D and M.Phil. and consultant for AI Project for Wipro, Bangalore, AI Project for IGNITE Learning Solutions, Bangalore Consultant for SVM IT Solutions LTD, Tirupati and Docile infotech India Private Limited

- ▶ He is guiding young minds to achieve their research goal in the field of mathematics.
- ▶ Prof. Keshava Reddy has written Books on Mathematics which will not only improve the knowledge of future engineering students, They also help students to improve their research capabilities in mathematics.

Awards and Honors

- ▶ **Andhra Pradesh State Best Teacher Award** on 5th September, 2017.
- ▶ **Distinguished Scientist** for the contribution and achievement in the field of Functional Analysis and Optimization Techniques research Awards–VIRA. 2016, on 3rd December 2016.
