

HINDU COLLEGE :: GUNTUR

7.2.1

Best Practice

Title of the Practice :

Learn one Hindi word Everyday

Objectives of the Practice:

1. To make the students familiar with a Second language

Learning a second language, particularly Hindi, is a great way to improve your versatility, career opportunities, and cultural horizons. Studies suggest that being multilingual helps improve multitasking, makes your memory better, and can also help improve your listening and hearing skills.

2. To help the young minds to evolve

More regions of our brain are exercised when we learn different languages, and studying Hindi with English can help young minds evolve. The way the Hindi script (*Devanagri*) is written, both the left and the right hemispheres of our brain are equally used when reading the syllabic script.

3. To break communication barrier:

It is observed that, when the students visit the other places, even to Hyderabad, they are suffering from communication barrier. Hence, to overcome them from that obstracle, this activity is undertaken.

4. To spread the National Language further:

In the context of Globalization, most of the students are interested to learn English and the usage of Hindi is limited only to curriculum.

In this context, it is proposed to display a Hindi word on a prominent place of the college every day in Hindi, English and Telugu. The ultimate goal of this activity is to enhance the LSRW Skills of the Students in Hindi (Learning, Speaking, Reading and Writing).

The Context:

India is known for its diversity in languages, with more than 22 major dialects spoken in various parts of the country. We figured out how to push through the difficulties and are currently rising to the level of world superpowers even with the different languages used across. Post-British rule, the importance of the English language acquired force and has pushed our mother tongue as a secondary language, neglecting to comprehend the significance of the Hindi language and study.

The New Education Policy supports teaching students in their mother tongue. The excerpts from the policy mention that young children learn and grasp nontrivial concepts more quickly in their home language/mother-tongue. The policy further states that wherever possible, the medium of instruction until at least Grade 5, but preferably till Grade 8 and beyond, will be the mother-tongue. The 2011 linguistic census, Hindi is the mother tongue of almost 44% of the total population. It is also a fact that Hindi is world's third mostly spoken language with about 60 crore speaking people.

The Hindi language is part of the Aryan and Iranian branch that belongs to the Indo-European family of world languages. It is not only preferred by the majority in India as a spoken language, but speakers of Hindi can be found in various parts of the world like Uganda, Yemen, Bangladesh, Mauritius, and South Africa. Furthermore, Hindi has had its role in our country and is widely spoken across different states that bind most Indians together. Most of us have grown up speaking Hindi in our homes and still use it to communicate informally in most situations. It is also used officially by the government for its paperwork and diplomatic records. In this context, Hindu College, Guntur is resolved to shoulder the responsibility of familiarizing Hindi Language as much as possible.

The Practice:

- We have invited the student volunteers to prepare 'play cards' on Hindi words with meaning in English and Telugu.
- Every day, in the Hindi Class, we ask the students to practice the words by sharing the cards and encourage them to write it them in one's own sentences.
- The students are divided according to their courses, viz., B.Sc (Computers); B.Sc. (Botany) and ask them to practice their subject related Hindi word:
For example, Flower = Phool.

- We encourage the students to speak in Hindi on every Saturday.
- We ask the students to write some letters, stories, dramas in Hindi
- Every day, in the College Notice Board, we display one Quotation in Hindi.
For example: Eat fruits daily = Har rooz phal khaiye= Prati roju oka pandu tinandi.

Evidence of Success:

The Activity is conducted by the department of Hindi. It is clearly evident that the LSRW Skills among most of the students and faculty have been enhanced substantially. The faculty of Hindi is actively involved in the event and successfully organizing the same for the last 3 years.

- ✓ The students who are opting Hindi as their second language have increased in number.
- ✓ The final examination results of the department are far better than college average as well as the University average.
- ✓ The involvement of the students in the Program is found to be increasing.
- ✓ Now, many students in the college can communicate in Hindi better.
- ✓ The students from other surrounding colleges are also visiting the college to learn Hindi word from the Caption Board.

Problems Encountered and Resources Required:

- In the beginning days, the staff and students felt it difficult in spelling the 'Hindi words'
- Though the Caption Board is placed in a prominent place of the college, the students of other blocks are not able to come and learn.
- Some of the students are showing interest in English words than Hindi words.
- Keeping all the Photos of daily activity in cell phone/laptop is also a problem with respect to memory of the cell phone/system

Notes:

This is one of the student related best activities within the slogan of “Student First”. The involvement of the students and staff encouraged the other Language Departments to initiate a good number of best practices with a healthy competition. For example, the Sanskrit Department started ‘Saral Sanskrit’ Programme. Similarly, Telugu Department is encouraging the students to attend ‘Kavi Sammelanam’ (meetings of poets), conducting Library related activities and other literary activities
