

HINDU COLLEGE GUNTGUR

DEPARTMENT OF BOTANY

GUEST LECTURE BY Dr.G.RAMESH

Name of the Event: Guest lecture by Dr.G.RAMESH

Date: 07-10-2023

Venue: SVRM COLLEGE, NAGARAM

Topic: "MUSHROOM CULTIVATION"

Number of Students participated: 56

Co-Ordinator: DR. G. RAMESH

Objective of the Event: To bring awareness on Cultivation of Mushroom

Plan and Execution: Guest lecture given to 3rd BSC BZC students of SVRM COLLEGE, NAGARAM. Explained about the mushroom cultivation, it is fruiting body of a fungi. It contains a stalk and an umbrella cap. The cap like structure is known as pileus, and the stalk is known as stipe which is attached to the thread like structure called mycelia. The mycelia absorb the nutrients and give rise to the fruiting body. The spores are called Basidiospores. Explained about the bed preparation, moisturing, layering, straw preparation, spawn preparation. Oyster mushroom is the easy method of the preparation

Outcome of the Event: The students are very happy in learning the cultivation in simple method.
